Click on the arrow and select the Options tab. From here you can download the Adobe Acrobat Reader and Adobe Flash Player. Also, there are options for saving certain files to removable media like Zip or 7-Zip. Once you have opened Photoshop, you need to create a new document. You can also choose the Ink tools, the Brush tools, or the Pencil tools. Click on the picture of the tool you want to use. You can also switch to the Paint Bucket (select it from the dropdown menu) if you want to paint in a rectangular area. The Brush tool is the most powerful tool. The brush has many settings.
